WELCOME TO THE EPCS 2016 IN FREIBURG!

Dear colleagues and friends,

It is a great pleasure to welcome you to the 2016 Meeting of the European Public Choice Society (EPCS) at the University of Freiburg in Germany. We are honored that we have been selected for organizing this important meeting at one of the oldest German universities (founded in 1457). Freiburg is an excellent place for hosting the Meeting of the EPCS. The Freiburg School of Economics was important for the development of Public Choice in Germany.

The Annual Meeting of the EPCS has always been the place to present and discuss new research on the economics and politics of public and non-market decision-making, political economy and the economics of institutions. We received excellent submissions which demonstrate the great variety of the research field of Public Choice. This year's scientific program includes a fine selection of papers to be presented in 83 parallel sessions. Each session includes three papers dealing (as much as possible) with related topics to facilitate intense discussions. As in every year, the Wicksell prize, in honor of the Swedish economist Johan Gustaf Knut Wicksell, will be awarded to the best paper submitted by an author younger than 30.

The scientific program also includes three exciting keynote speeches which address key challenges modern societies are facing in today's world. The president of the EPCS, Professor Axel Dreher, will share his view on "The Political Economy of Foreign Aid." Professor Sascha O. Becker will discuss the relationship of "Religion, Division of Labor, and Conflict." Professor Eliana La Ferrara will talk about "Shaping educational careers of immigrant children: Aspirations, cognitive skills and teachers' beliefs."

Of course, the Meeting also includes several opportunities for informal discussions and networking. The welcome dinner on Wednesday is a great chance to meet again old friends and make new ones. During the social activity, we will learn about the traditional wine production in the Kaiserstuhl/Baden. Part of the learning is of course the tasting! Finally, we will gather for the traditional gala dinner which will take place at the Historisches Kaufhaus – the former Parliament of the Land Baden.

The Local Organizing Committee will be happy to help you with any questions and requirements. You can find us in room 1142 or ask someone wearing a green T-shirt.

We hope that you will have a productive and inspiring conference, meet many colleagues and friends, and find some time to enjoy the historic town and its beautiful surroundings.

Thank you for being our guests!

„With its vineyards and vines, wine-villages and little farms, the western edge of the holiday region is one of the favoured destinations for “Vierteleschlotzer”, a name that Baden’s people like to give to somebody who appreciates a good glass of wine. Baden wines are the only ones in Germany that belong to the wine-growing zone B of the EU. Therefore “Black Forest unions” meet higher standards.

In Baden, red and white wines of great repute flourish. The Blaue Spätburgunder dominates in the category of red wines, while in the category of white wines it is the Müller-Thurgau. With regard to the other varieties, each winegrower typically specialises in the regional wine: the Riesling is mostly at home in Ortenau, the Markgräflerland is the land of Gutedel and Burgunder-wines like the Ruländer (Pinot gris) and Weißburgunder (Pinot blanc) are mainly cultivated in Breisgau, Kaiser-stuhl or Tuniberg” (text: www.blackforest-tourism.com).
